STUDENT INVESTMENT PROGRAM RECEIVES \$1.5 MILLION GIFT

Students will soon intensively assess investment options in a stimulating, technology-rich trading environment – making real decisions with real assets in real time.

Jeffrey S. Van Harte

That's the vision of Titan Capital Management, a student-run investment management center and real-life laboratory scheduled to open next year. The center was established through a \$1.5 million gift from Cal State Fullerton business alumnus Jeffrey S. Van Harte '80 (B.A. business administration-finance), chairman and chief investment officer of Jackson Square Partners. This funding will also be used to expand an existing student-managed investment fund that Van Harte helped create.

This gift is the latest Van Harte has made to his alma mater and to the Mihaylo College of Business and Economics.

"Jeff has been a longtime supporter of the program, both in the time he spends to nurture it and with financial support," said Anil Puri, dean of Mihaylo College of Business and Economics. "His commitment to the program is invaluable."

Titan Capital Management builds upon the success of the existing Applied Securities Analysis Program in Mihaylo College, a rigorous program in which students analyze businesses and decide whether to buy, sell or hold the stocks they have in their portfolios.
